

Virtual Activity volunteer

Do you love Bingo and get excited about quizzes? Association of Carer's charity are looking for a volunteer host for their online activities!

During the COVID-19 outbreak normal face-to-face respite and computer help services were temporarily put on hold. The charity had to look at innovative, interesting ways to interact and support carer's in the new 'virtual' world. Following the successful introduction of regular Bingo and quiz sessions they are now looking for a volunteer to help facilitate these already established sessions.

If you see yourself as the next big quiz master or can see yourself calling out the Bingo numbers then get in touch.

The volunteers for this role are required to be confident in both their presentation skills and their IT skills. They will need access to a PC/laptop/tablet and have good internet connection. They will need to be confident in using the Zoom virtual platform.

Association of carers will provide full training and support along the way.

For an application pack please contact Kathy@associationofcarers.org.uk or call 01424 722309
